## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 04/25/2006 has been entered.

2. Claims 1-10 and 20 were allowed in previous office action mailed on 01/12/2006. Claims 21-30 are newly added in the response sent with the RCE filed on 04/25/2006. Therefore, claims 1-10 and 20-30 are currently pending in this application.

### ***Information Disclosure Statement***

3. The information disclosure statement (IDS) submitted on 04/06/2006, 04/25/2006 and 05/08/2006 were filed with/before the request for continued examination under 37 CFR 1.114. The submission is in compliance with the provisions of 37 CFR 1.97. The prior art, "Replication Guide and Reference, Version 8", pp iii-xxviii and 1-756 listed under "Other Documents" is not considered because this prior art is not received/submitted with either the IDS submitted on 04/06/2006 or 04/25/2006.

Accordingly, the information disclosure statement is being *partially considered* by the examiner.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 21-30 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Although the specification of the current application supports for/discloses a first journal storage area, a second journal storage area and a third journal storage area for storing the journal used for producing a copy of data stored in the first storage area (see page 4, line 24 – page 5, line 24), the limitations “a first copy data storage area for storing a copy of data to be stored in said first storage area”, “a second copy data storage area for storing said copy data transmitted from said first control unit” and “a third copy data storage area for storing said copy data transmitted from said first control unit” disclosed in claim 21 is not supported by the specification of the current application. Claims 22-30 are also not supported by the specification of the current application for the same reason(s) as described above as they are depend upon the clam 21.

***Allowable Subject Matter***

5. Claims 1-10 and 20 are allowed for the same reasons as stated in the previous office action.

***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
